Thermal Management and Characterization in Electronics

Guest Editors:

Prof. Andras Poppe

Department of Electron Devices,
Budapest University of
Technology and Economics;
Magyar tudósok körútja 2, bldg.
Q, 1117 Budapest, Hungary

Prof. Dr. Márta Rencz

Department of Electron Devices,
Budapest University of
Technology and Economics, H-
1117 Budapest, Hungary

Prof. Dr. Lorenzo Codecasa

Department of Electronics,
Information and Bioengineering,
Politecnico di Milano, 20133
Milan, Italy

Deadline for manuscript
submissions:

closed (1 July 2021)

Message from the Guest Editors

Dear Colleagues,

As a follow-up to the 26th THERMINIC Workshop, held in Berlin in September 2020, a Special Issue of *energies* about thermal and multi-physical investigations electronics systems will be edited by Prof. Marta Rencz, Prof. Lorenzo Codecasa and Prof. Andras Poppe.

This Special Issue will target the presentation of the newest research results of thermal effects in electronics today, from characterization to through multi-physics simulation to cooling solutions and reliability assessment.

This special issue is not only collecting papers from the 26th THERMINIC Workshop, but also will contain papers from other scholars who are interested in this topic. Papers that were presented at THERMINIC must be revised and contain at least 60% new material that has never been presented before.

Prof. Andras Poppe

Prof. Dr. Márta Rencz

Prof. Lorenzo Codecasa

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
