Message from the Guest Editors

This Special Issue of *Energies* addresses all the abovementioned issues.

We would like to invite you to submit manuscripts, especially in the following areas: energy and other resource recovery at wastewater treatment plants, intensification of water and wastewater treatment processes, sludge management, water reuse in urban areas, smart water systems, water–energy nexus, energy optimization for water and wastewater systems, energy and exergy analyses for water and wastewater systems, smart cities, and life cycle assessment for water and wastewater systems.

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
