

## Special Issue

# Analysis and Experiment for Electric Power Quality

### Message from the Guest Editor

The importance of electric power quality issues has recently increased because of the intensive use of power electronic equipment, which results in a deviation of voltage and current waveforms. The electric power quality is covered by two main subjects: the development of power quality indices and electrical disturbances (detection, analysis, and correction). This Special Issue of *Energies*, "Analysis and Experiments for Electric Power Quality", will publish outstanding contributions on electric power quality, in low and medium-voltage applications:

- Harmonics;
- Blackouts;
- Under- and over-voltage;
- Sags and swells;
- Unbalance;
- Flickers;
- Transients.

---

### Guest Editor

Dr. Gabriel Nicolae Popa

Department of Electrical Engineering and Industrial Informatics, Faculty of Engineering Hunedoara, Politehnica University Timișoara, No. 5, Revolutiei Str., 331128 Hunedoara, Romania

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
