

Special Issue

Research in Several Aspects of Outdoor Lighting: Energy, Sustainability, Safety, and Visual Perception

Message from the Guest Editors

We are inviting submissions for this Special Issue to cover several aspects of outdoor lighting such as, for example, sustainability and energy efficiency and savings, safety (traffic and road safety, perceptions of safety), and visual perception of outdoor environments. We encourage studies in a range of disciplines covering quantitative, qualitative, and mixed-methods research.

- sustainable development
- ecological impact
- energy efficiency and energy savings
- light pollution
- LCA (life cycle assessment)
- economical aspects of outdoor lighting
- traffic and road safety
- reassurance and perception of safety
- human health
- social wellbeing, quality of life, and equitability
- visual perception of the lit environment

Guest Editors

Dr. Annika K. Jägerbrand

Department for Environmental and Biosciences, Rydberg Laboratory for Applied Sciences (RLAS), School of Business, Innovation and Sustainability, Halmstad University, Halmstad, Sweden

Dr. Ulrika Wänström Lindh

Department of Construction Engineering and Lighting Science, School of Engineering, Jönköping University, Jönköping, Sweden

Deadline for manuscript submissions

closed (30 September 2021)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
