

Topical Collection

"Electric Vehicles" Section: Review Papers

Message from the Collection Editors

This collection focuses on review papers in the field, including but not limited to:

- Ground EVs;
- Airborne EVs;
- Seaborne EVs;
- Electrically powered spacecraft;
- Autonomous and connected vehicles;
- Battery/ultracapacitor/fuel cell;
- Charging technologies;
- Energy and battery management systems;
- EV market and policy;
- Electric drive systems and component technologies;
- Grid integration of EVs;
- Safety aspects and information security issues of EVs.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
