submissions:

closed (30 June 2014)

Message from the Guest Editor

Dear Colleague,

With publication of "The Fourth Phase of Water: Beyond Solid, Liquid, and Vapor," interest in interfacial (EZ) water has grown exponentially. Various laboratories have undertaken studies on this fourth phase of water. Edited by Gerald H. Pollack, the Special Edition of Entropy will include the latest work in the area, with applications to diverse fields.

Avenue, Albany, NY 12222, USA

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [PubMed](#), [PMC](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Physics, Multidisciplinary*) / CiteScore - Q1 (Mathematical Physics)
