Entropy and Gravitation

Guest Editor:

Prof. Dr. Angelo Plastino

Instituto de Física (IFLP-CCT-CONICET), Universidad Nacional de La Plata, C.C. 727, La Plata 1900, Argentina

Message from the Guest Editor

It is a quite exciting, almost revolutionary question to ask ourselves whether gravity is fundamental or emergent.

A deep discussion on this issue might provide important links to a complete theory of quantum gravity, as a maximal aspiration, or will at least lead to interesting insights.

Deadline for manuscript submissions: closed (31 October 2019)

Editor-in-Chief

Prof. Dr. Kevin H. Knuth

Department of Physics, University at Albany, 1400 Washington Avenue, Albany, NY 12222, USA

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (Physics, Multidisciplinary) / CiteScore - Q1 (Mathematical Physics)
