2. College of Mathematical
Medicine, Zhejiang Normal
University, Jinhua 321004, China

Prof. Dr. Changjun Zhou

College of Mathematics and
Computer Science, Zhejiang
Normal University, Jinhua
321004, China

Message from the Guest Editors

This Special Issue will accept unpublished original papers and comprehensive reviews focused on (but not restricted to) the following research areas: deep learning models applied on biomedical data; analysis of medical image data; high throughput sequencing data analysis; multi-omics data analysis; complex biological network; machine learning in precision medicine; medical data processing; drug design and discovery; and computational intelligence in machine learning methods applied on biomedical data.

Deadline for manuscript

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [PubMed](#), [PMC](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Physics, Multidisciplinary*) / CiteScore - Q1 (Mathematical Physics)
