Statistical Machine Learning with High-Dimensional Data and Image Analysis

Guest Editor:

Dr. Lei Wang

Shenzhen Institutes of Advanced Technology, Chinese Academy of Sciences, Shenzhen 518055, China

Deadline for manuscript submissions:

closed (26 April 2023)

Message from the Guest Editor

This Special Issue aims to be a forum for the presentation of new techniques of statistical machine learning for high-dimensional data. In particular, the analysis and interpretation of real-world data or images based on machine learning or deep learning fall within the scope of this Special Issue.

Keywords: statistical machine learning; high-dimensional data; image processing; data mining; pattern recognition; deep learning; big data; computer vision; multimedia

Avenue, Albany, NY 12222, USA

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [PubMed](#), [PMC](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Physics, Multidisciplinary*) / CiteScore - Q1 (Mathematical Physics)
