## Application of Nonlinear Dynamics in Medicine: Potential and Challenges

Guest Editors:

**Dr. Peng Li**

Department of Medicine,  
Brigham and Women's Hospital,  
Harvard Medical School, Boston,  
MA 02115, USA

**Dr. Kun Hu**

Departments of Medicine and  
Neurology, Brigham and  
Women's Hospital, Harvard  
Medical School, Boston, MA  
02115, USA

Deadline for manuscript  
submissions:  
**closed (20 July 2022)**

### Message from the Guest Editors

To collect ideas and evidence for the potential of applying nonlinear dynamic tools in medicine, as well as for the main barriers that hinder the application, this Special Issue will accept unpublished Original Research Articles, Reviews, Perspectives and Commentary Articles that are focused on or related to the following topics:

1. Development/improvement of nonlinear analytical tools for physiological data analysis;
2. Application of nonlinear analytical tools for diagnosis and prediction of diseases and health outcomes;
3. Opinions on the advantages and limitations of existing nonlinear analytical tools;
4. Insights into the applications and future directions of nonlinear dynamics in medicine.

at Albany, 1400 Washington  
Avenue, Albany, NY 12222, USA

## Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

*Entropy* is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [PubMed](#), [PMC](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Physics, Multidisciplinary*) / CiteScore - Q1 (Mathematical Physics)
