Message from the Guest Editor

Dear Colleagues,

The COVID-19 pandemic affects everyone; therefore, we intend to identify global environmental challenges resulting from this crisis. The worldwide disruption caused by the pandemic has led to numerous impacts on the environment. These effects have both positive and negative consequences, which need to be systematically and empirically described.

Some of these implications of the pandemic have short-term and immediate effects, while others will have medium-term or long-term changes. Authors may address environmental implications at the local, national, or global scale.

We welcome contributions from various backgrounds as well as interdisciplinary or multidisciplinary approaches.

Keywords:

- environmental management and sustainability
- environmental implications
- environment and sustainability
- environmental economics
- COVID-19 pandemic
- COVID-19 recovery strategies

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Environmental issues are quickly becoming central political, economic and academic topics of the twenty-first century. A large number of modern challenges are directly or indirectly caused by complex interactions between environmental issues. Such issues require interdisciplinary research, knowledge and insights to understand and, ultimately, for solutions to be found. Through the journal *Environments*, we strive to create a platform for meaningful discourse by accepting contributions from a wide range of fields. We sincerely hope you will consider publishing your distinguished work in this highly-accessible, peer-reviewed journal.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, ESCI (Web of Science), PubAg, AGRIS, GeoRef, and other databases.**

Journal Rank: JCR - Q2 (*Environmental Sciences*) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
