Message from the Guest Editors

Dear Colleagues,

This Special Issue will include the top 5–10 papers presented at the MUD conference in Breda, the Netherlands, based on a call for contributions on the following topics:

- Where do we come from?
The similar and differing theoretical underpinnings of, and perspectives behind, strategic-level urban, terrestrial or marine spatial planning and development.
- What are we doing?
The methods, tools, techniques and best practices of strategic-level urban, terrestrial or marine spatial planning and development, and how these compare to each other.
- Where are we going?
The transitions that strategic-level urban, terrestrial or marine spatial planners and developers need to work on together, notably sustainability transitions and preventing and adapting to climate change.

Only papers accepted and presented at the MUD conference are eligible for this Special Issue.

Please visit the conference website www.buas.nl/mud for more information and to submit an abstract by 31 March 2022. We hope to welcome you in Breda, the Netherlands!

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Environmental issues are quickly becoming central political, economic and academic topics of the twenty-first century. A large number of modern challenges are directly or indirectly caused by complex interactions between environmental issues. Such issues require interdisciplinary research, knowledge and insights to understand and, ultimately, for solutions to be found. Through the journal *Environments*, we strive to create a platform for meaningful discourse by accepting contributions from a wide range of fields. We sincerely hope you will consider publishing your distinguished work in this highly-accessible, peer-reviewed journal.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [PubAg](#), [AGRIS](#), [GeoRef](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Sciences*) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
