Message from the Collection Editor

Dear Colleagues,

This Collection aims to collect scientific and technological developments and the latest research hot topics in the field of "fibers". The main article type will be focused on "review". The following topics are welcomed, but not limited to:

- Polymer fibers;
- Carbon fibers;
- Nanofibers;
- Optical fibers;
- Glass fibers;
- Nanotubes;
- Plant fibers;
- Cellulose;
- Animal fibers;
- Mineral fibers;
- Synthetic fibers;
- Textile fibers;
- Fibers reinforcement;
- Other topics related to fibers.

Kind regards,

Prof. Dr. Martin Clift
Collection Editor

fibers

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Fibers is intended as an integrative platform, bringing together specialists with expertise concerning a large range of biological, synthetic, metallic and mineral fibers. The intent is to bring together scientists who would otherwise be unlikely to encounter each other's findings. By facilitating communication across specialties, the journal will advance understanding of the underlying commonality of many physical and chemical aspects of fibers.

We welcome submission of manuscripts from a diverse range of disciplines relating to many types of fibers utilizing a variety of research approaches.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), PubAg, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Materials Science, Multidisciplinary*) / CiteScore - Q1 (Civil and Structural Engineering)
