

Special Issue

Natural Fiber Competitiveness and Sustainability

Message from the Guest Editor

This Special Issue of *Fibers* intends to cover recent research relevant to natural fiber competitiveness and sustainability. It solicits contributions from researchers interested in natural fiber utilization and innovation, in inter-fiber competition, as well as in opportunities and challenges relevant to natural fiber sustainability.

Keywords

- natural fibers
- biodegradability
- sustainability
- inter-fiber competition
- cotton
- wool
- cellulosic fibers
- biocomposites
- consumer preference
- renewable resources
- biomaterials

Guest Editor

Prof. Dr. Mourad Krifa

About the Journal

Message from the Editor-in-Chief

Fibers is intended as an integrative platform, bringing together specialists with expertise concerning a large range of biological, synthetic, metallic and mineral fibers. The intent is to bring together scientists who would otherwise be unlikely to encounter each other's findings. By facilitating communication across specialties, the journal will advance understanding of the underlying commonality of many physical and chemical aspects of fibers.

We welcome submission of manuscripts from a diverse range of disciplines relating to many types of fibers utilizing a variety of research approaches.

Editor-in-Chief

Prof. Dr. Martin J. D. Clift

In Vitro Toxicology Group, Institute of Life Sciences 1, Swansea
University Medical School (SUMS), Swansea SA2 8PP, Wales, UK

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Ei Compendex, PubAg, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Materials Science, Multidisciplinary) / CiteScore - Q1 (Civil and Structural Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.3 days after submission; acceptance to publication is undertaken in 4.8 days (median values for papers published in this journal in the second half of 2024).
