Rațiu Street 5-7, 550012 Sibiu,
Romania

Deadline for manuscript
submissions:

30 November 2024

Message from the Guest Editor

This Special Issue intends to stress the importance of this subject area and the implications of the obtained results for environmental structure and function conservation, protection and restoration practice, **specifically related to the aquatic animals**. We welcome both classic and innovative valuable research approaches which aim to communicate recent advances in the aquatic biodiversity habitats, species, populations, associations, communities, biocoenosis, ecosystems, etc., from local to global, and from short- to long-term perspectives.

Aquatic animals, priceless natural resource builders of the humankind, are ecologic indicators of the state of the Blue Planet and an oracle of our common fate. The third millennium will have its own chance to keep us together alive or let the **floating wonders** survive and thrive and make us vanish.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maria Angeles Esteban

Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

Message from the Editor-in-Chief

Fishes is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubAg](#), [FSTA](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Marine and Freshwater Biology*)

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.2 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2024).
