Genetics and Evolutionary Biology of Aquatic Invasive Organisms

Guest Editor:

Dr. Roberto Ferreira Artoni

Department of Structural,
Molecular, and Genetic Biology,
Universidade Estadual de Ponta
Grossa, Ponta Grossa, Brazil

Deadline for manuscript
submissions:

31 January 2025

Message from the Guest Editor

Dear Colleagues,

The special volume aims to compile innovative research and in-depth analyses shedding light on the intricate genetic mechanisms and evolutionary processes underlying the invasion of aquatic organisms into global ecosystems.

We invite renowned experts and emerging researchers to contribute high-quality papers with clear and robust hypotheses, tested through appropriate methodologies, and discourage exclusively descriptive manuscripts. From the molecular mechanisms propelling invasion to the evolutionary adaptations enabling persistence in new environments, this volume aims to concentrate significant reading for scientists, environmental managers and all committed to understanding and addressing the challenges posed by invasive aquatic organisms.

Join us on this fascinating journey into the world of genetics and evolutionary biology as we unravel the secrets behind the invasion of aquatic organisms, magnified by globalization and critically established in the face of global climate change, opening new horizons for research and aquatic biota conservation.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maria Angeles Esteban

Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

Message from the Editor-in-Chief

Fishes is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubAg](#), [FSTA](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Marine and Freshwater Biology*)

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.2 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2024).
