Deadline for manuscript  
submissions:

**closed (20 November 2023)**

### Message from the Guest Editors

Dear Colleagues,

Bivalves are excellent nutrients for human beings, sharing a large part of the world's aquaculture industry. This Special Issue primarily focuses on, but is not limited to, the bivalves, as well as gastropods and cephalopods, etc. We aim to form a Special Issue concentrated in bivalve feeding, bait, and nutrition. For example, the bivalve feeding mechanism, bivalve bait such as microalgae and microparticle feed, bivalve nutrition such lipid, protein, and carbohydrate, and their response to external factors such as salinity, temperature, and processing. We invite experts in relevant fields to submit compelling research or review articles to form a Special Issue that will contribute to the bivalve industry.

Prof. Jilin Xu  
Dr. Zhaoshou Ran

## Editor-in-Chief

**Prof. Dr. Maria Angeles Esteban**

Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

## Message from the Editor-in-Chief

*Fishes* is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [GEOBASE](#), [PubAg](#), [FSTA](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (Marine and Freshwater Biology)
