Prof. Dr. Giacomo Bernardi

Department of Ecology and Evolutionary Biology, University of California, Santa Cruz, CA, USA

Message from the Guest Editors

The effects of climate change can directly or indirectly have negative effect on small-scale fisheries, whose а communities are often the most vulnerable to climate change. Phenomena such as storms, excessive heating of the sea water, extreme rainfall, changes in the sea level, etc., are becoming more frequent overall. As a consequence of these phenomena, which can be worsened by other factors such as habitat destruction, overfishing, biological invasions and pollution, the abundance and distribution of fish and other valuable biological resources is changing. The aim of this Special Issue, "Impacts of Climate Change on Small-scale Fisheries", is to collect high-quality manuscripts focusing on small-scale fisheries and on the impacts that climate change and other factors could have on them.

Deadline for manuscript submissions: closed (30 September 2022)

Editor-in-Chief

Prof. Dr. Maria Angeles Esteban

Department of Cell Biology and Histology, Faculty of Biology, University of Murcia, 30100 Murcia, Spain

Message from the Editor-in-Chief

Fishes is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions. **High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, and other databases. **Journal Rank:** JCR - Q2 (*Marine & Freshwater Biology*)
