

Selected Papers From the 31st International Conference on Discrete Simulation of Fluid Dynamics

Guest Editors:

Prof. Dr. Moran Wang

Prof. Dr. Yuehong Qian

Dr. Yuxuan Chen

Dr. Chiyu Xie

Deadline for manuscript
submissions:
closed (30 November 2023)

Message from the Guest Editors

Dear Colleagues,

The topics of this Special Issue include recent progress and advances in discrete simulation methods including lattice Boltzmann schemes, dissipative particle dynamics, smoothed-particle hydrodynamics, direct Monte Carlo simulation, molecular dynamics, quantum Monte Carlo methods, multiparticle collision dynamics and hybrid methods. We welcome submissions on advances in both theory and computation, on engineering applications of discrete fluid algorithms, and on fundamental issues in mathematical modelling, numerical analysis, statistical mechanics, kinetic theory and hydrodynamics and their applications in microscopic, nanoscale and multiscale physics for emerging technologies. We also welcome theoretical and experimental works on interfacial phenomena, droplets, free-surface flow, and micro- and nano fluids.

Message from the Editor-in-Chief

Fluids (ISSN 2311-5521) is an international journal on all aspects of fluids in open access format: research articles, reviews and other contents are released on the internet immediately after acceptance. You are invited to contribute a research article or a comprehensive review for consideration and publication in *Fluids*. The scientific community and the general public have unlimited free access to the content as soon as it is published. Please consider *Fluids* as an exceptional, exciting enterprise ready to reward your trust, attention, and active participation.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q2 (*Mechanical Engineering*)
