Deadline for manuscript  
submissions:

**5 September 2024**

### Message from the Guest Editors

Dear Colleagues,

Volume I of this Special Issue ([https://www.mdpi.com/journal/foods/special\\_issues/EYDBU64H](https://www.mdpi.com/journal/foods/special_issues/EYDBU64H)) was a great success and gained the attention and interest of many scholars. We take the opportunity here to thank them for their contributions and support. As the topic continues to gain the attention of scholars and play a pivotal role, we are looking forward to the launch of Volume II. We hope that it will be as successful as Volume I and add significant value to the field.

Food industry waste products can provide a whole range of substances that may improve the nutritional value and functionality of new products. They often contain significant amounts of protein, dietary fiber, fat, vitamins, and a whole host of other biologically active substances. Examples of such waste products that increase the nutritional value of new products are fruit and vegetable pomace, extraction meal or pulp, molasses, etc. Here, we cordially invite authors to contribute original research articles or review articles covering the most recent progress in the application of using a whole range of waste products to obtain high value-added products.

## Editor-in-Chief

### Prof. Dr. Arun K. Bhunia

1. Department of Food Science,  
Purdue University, West  
Lafayette, IN, USA

2. Department of Comparative  
Pathobiology (Courtesy), Purdue  
University, West Lafayette, IN,  
USA

## Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
