Message from the Guest Editors

Dear colleagues,

The extent of fruit and vegetable loss reaches up to 40–50 % in some countries, and the post-harvest loss of fruit and vegetable is a global problem. Thus, reducing fruit and vegetable loss is one of the keys for enabling sustainable supply in the future. The reduction in fruit and vegetable losses will require the development and implementation of novel post-harvest technologies and equipment to maintain quality during handling and storage.

In this Special Issue, we invite submissions related to post-harvest technologies, equipment, packaging and cold chain management for fruit and vegetables. All aspects of the technological innovations, smart labels, functional packaging, and cold chain managements in reducing post-harvest losses of fresh fruit and vegetable will all be considered, including their mechanisms. Research articles and review articles are welcome.

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
