Message from the Guest Editors

We propose a Special Issue to focus on the “Fortification of food with micronutrients: production, determination, bioaccessibility and health benefits”. This Special Issue will include, but is not limited to, the following specific topics:

- Novel ways of micronutrient production and their use in food fortification (e.g., in situ fortification and synthetic biology);
- Novel methods of micronutrient delivery (e.g., nanotechnology);
- Methods for the determination of micronutrients;
- Influence of added micronutrients on food sensory characteristics and texture;
- In vivo and in vitro techniques to assess the bioaccessibility and health benefits of the added micronutrients;
- Stability of micronutrients in food.

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
