### **Message from the Guest Editor**

Dear Colleagues,

This Special Issue of *Foods* is focused on “Future Food Processing”. The food industry is constantly changing due to consumer demand to satisfy different lifestyles and wellness and diet trends. Moreover, there is a spotlight on the increasing concern to develop healthier and more sustainable processed food. Sustainable alternatives, using fewer resources, valorizing by-products, and optimizing food processes, are needed, while also reducing waste, to produce high-quality, safe, and nutritious food. Therefore, this Special Issue is open to the submission of research results and/or quality reviews on cutting-edge and new technological approaches related to the processing of food products.

## Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
