Deadline for manuscript submissions:

31 January 2025

Message from the Guest Editors

Alternative proteins are a mega food innovation trend in the global commercial food sector.

The current revolution in novel proteins is driven by several factors including increased consumer concerns around health and climate change. Some reports indicated an increase of 302% in new packaged consumer goods, launched with a plant-based claim, between 2018 and 2022. A many-fold increase is anticipated in the use of forage-based domestic protein sources in the coming years. With this rapid shift in consumption patterns, it is a crucial and challenging task to manage the food safety of alternative protein sources to protect consumer health, build trust in emerging food technologies, and ensure the long-term success and acceptance of these products within the food industry. This Special Issue aims to provide original research or reviews in the field of novel protein sources with emphasis on current state-of-the-art technology, challenges, and opportunities in the future.

IMPACT FACTOR 4.7

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, Foods has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
