Advances in Beneficial Food Microorganisms: Isolation, Identification, Characterization and Applications

Guest Editors:

Dr. Xiaomin Li

School of Biotechnology, Jiangnan University, 1800 Lihu Road, Wuxi, China

Dr. Xingguang Chen

Engineering Research Center of Bio-Process, Ministry of Education, Hefei University of Technology, 485 Danxia Road, Hefei, China

Deadline for manuscript submissions:

15 March 2025

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to provide a broader perspective of the latest advances in beneficial food microorganisms. We aim to address the following: 1) Where can we explore new sources of beneficial food microorganisms? 2) How can we isolate these new microorganisms? 3) How can we identify their functional components? 3) How can we illustrate their functional/beneficial component metabolic pathways? 4) How can we implement the application or potential of beneficial food microorganisms in Methodological advances in all areas of beneficial food microorganisms, from fundamental research to applied research, will be covered. We welcome both original research and review articles on topics including, but not limited to, the following:

- Microbiomes:
- Metagenomes;
- · Enzyme engineering;
- · Probiotics:
- Expolysaccharides;
- Aromatic compounds;
- Pigments;
- · Vitamins;
- · Biodegradation;
- Food fermentation.

Specialsue

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, Foods has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
