### Message from the Guest Editor

As research and innovation continue to propel the egg industry forward, we can expect even more exciting developments in food processing, quality control, and the functional enhancement of egg products in the future.

This Special Issue devoted to "Advances in Food Processing, Quality Control, and Functional Properties of Egg Products" is set to showcase an extensive array of up-to-date research and current review articles. These articles will not only cover the most recent techniques in egg product processing and rigorous quality guarantee frameworks but also conduct an in-depth analysis of the nutritional value, flavor profile, and processing adaptability of eggs. Through this compilation, our objective is to promote the egg industry and effectively fulfill the constantly evolving demands of the market.

## Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
