Deadline for manuscript  
submissions:

**closed (30 April 2024)**

### Message from the Guest Editor

Dear Colleagues,

Enzyme biotechnology has a wide range of applications in the food industry. Enzymes are used in food processing to improve quality, enhance taste, and increase shelf life. They are also used in the production of food additives such as emulsifiers, thickeners, and stabilizers, as well as in the production of alcoholic beverages, cheese, and bread.

Therefore, it is not an exaggeration to say that we are currently in the age of enzyme biotechnology. With this in mind, we would like to prepare a Special Issue, entitled "Applications of Enzyme Biotechnology in Foods", so that the excellent research results of enzyme biotechnology researchers can be utilized in the food industry.

Dr. Jae-Hoon Shim

## Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
