### Message from the Guest Editors

ICFNH 2022 is a multidisciplinary congress discussing the importance of sustainable food systems in terms of food, nutrition and public health, promoted by the National Institute of Health, Dr. Ricardo Jorge, I.P., through the Department of Food and Nutrition. We are organizing a Special Issue entitled “Proceedings of First International Congress on Food, Nutrition and Public Health—Towards a Sustainable Future (ICFNH2022)”, to report research evidence shared on the Congress.

At ICFNH 2022, experts recognized in the field plan to discuss issues focusing on sustainable food production and consumption, sustainable nutritional strategies and the impact of a sustainable approach to food and nutrition on public health. The conference abstracts address several key areas, including:

- Sustainable food production and sustainable food systems;
- Sustainable diets and human nutrition;
- Impact of sustainable food and nutrition on public health.
