Message from the Guest Editors

In recent years, waste generation has grown at an alarming rate, and among the different types of waste, **agri-food wastes** are of particular concern. Generated at any point in the food supply chain, they can be related to production, post-harvest, industrial processing, distribution, domestic processing, and consumption, representing not only a great economic loss but also an important ethical and environmental issue.

The modern challenge is to minimize agri-food wastes, optimize production processes, and move to a production/consumption model organized according to a circular economic strategy through a minimal waste generation and the “zero waste concept”.

In this sense, the valorization of agri-food wastes and byproducts to obtain added-value products can be regarded as a valuable strategy to responsibly approach the outstanding needs of both consumer and society.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
