Frontiers in the Application of Bioactive Milk Proteins and Alternative/Unconventional Sources of Proteins in Food

Guest Editors:

Dr. Bartosz Sołowiej

Department of Dairy Technology and Functional Foods, Faculty of Food Sciences and Biotechnology, University of Life Sciences in Lublin, Skromna 8 Str., 20-704 Lublin, Poland

Prof. Dr. Jelena Miocinovic

Department of Animal Source Food Technology, Faculty of Agriculture, University of Belgrade, Nemanjina 6 Str., 11000 Belgrade, Serbia

Deadline for manuscript submissions:

closed (30 August 2022)

Message from the Guest Editors

Advancements in food technology and human nutrition, especially in the face of changing consumer preferences, e.g., reinforcing health-promoting properties, antioxidative properties, and reducing calorific value, have become popular. Therefore, this Special Issue on the *Frontiers in the Application of Bioactive Milk Proteins and Alternative/Unconventional Sources of Proteins in Food* will expand our knowledge of the abovementioned topic and will be mainly focused on:

Innovations in the production of all types of food products of animal or plant origin; Recent advances in food processing technology and development of new food products; Fortified and reformulated food products with health-promoting properties; Quality control (physicochemical, rheological, biochemical, enzymatic, safety microbiological, sensory and stability properties of food products), consumer preferences, and acceptance and market research; Validation of new technologies and the effects of various additives and processing variables in systems containing proteins; Interactions between proteins and polysaccharides; Functional properties of bioactive milk proteins; Alternative or unconventional sources of proteins.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
