Dr. Noelia Duarte

Research Institute for Medicines (iMed.Ulisboa), Faculty of Pharmacy, Universidade de Lisboa, Avenida Prof. Gama Pinto, 1649-003 Lisbon, Portugal

Deadline for manuscript submissions:

closed (10 June 2024)

Message from the Guest Editors

Dear Colleagues,

This Special Issue in *Foods* aims to gather the latest research and advancements addressing the application of chromatographic and mass spectrometry methods in food science.

We encourage authors to share their scientific achievements in original research or review articles regarding the applications of these techniques in the analysis of naturally occurring compounds, food additives and contaminants, in different food sources. Potential topics include, but are not limited to, the identification and quantitation of food bioactive compounds, flavor and aroma compounds, environmental pollutants, adulterants, pesticides, mycotoxins, natural toxins, veterinary and human drugs, toxins generated during food processing and packaging materials. The development and validation of extraction and chromatographic methods, the identification of existing challenges and possible future approaches will also be considered.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.**

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
