Deadline for manuscript
submissions:

closed (20 October 2023)

Message from the Guest Editors

Dear Colleagues,

Health-related metabolic risk factors, such as increased blood pressure, obesity, and dyslipidemias, can lead to metabolic syndrome and enhanced risk of cardiovascular disease, stroke, and death. In recent years, there has been increasing evidence that functional foods, food components, and bioactive molecules from the plant and microbial origins can exert preventive and therapeutic benefits for human health by modulating the host metabolism, physiology, nutrition, and immune functions. For this Special Issue of Foods, we are inviting the submission of manuscripts that join efforts to present and compile the effects of traditional and emerging functional foods and food components on the metabolic risk factors in a translational perspective by combining in vitro, ex vivo, and animal studies, and or clinical trials/approaches. Original and unpublished research and highest-quality review papers addressing the physiology, cellular, genomics, and molecular mechanisms underlying the modulating action of functional foods and food components on inflammation, blood pressure, oxidative stress, and immune and endocrine signaling pathways are encouraged.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
