### Message from the Guest Editor

Food science has greatly advanced in the last few years. This progress has resulted in increasing being paid attention to the origin and quality of raw materials, as well as their derived food products. This Special Issue invites authors to submit both research and review papers related to the field of food safety. Therefore, this Special Issue will gather the most recent contributions and findings concerning food control, food toxicology, and exposure assessments for different food contaminants. Obtaining and discussing new information is an important step toward ensuring that continuous research progress is made in the area of food science.

Deadline for manuscript submissions:
