Natural Antioxidants: Innovative Extraction and Application in Foods

Guest Editors:

Prof. Dr. Monica Rosa Loizzo

Department of Pharmacy, Health and Nutritional Sciences,
University of Calabria, 87036
Rende, CS, Italy

Dr. Ana Teresa Sanches-Silva

National Institute of Agrarian and Veterinary Research, Rua dos Lágidos, Lugar da Madalena, 4485-655 Vila do Conde, Portugal

Deadline for manuscript submissions:
closed (1 September 2020)

Message from the Guest Editors

Research has devoted great attention to the study of the biological properties of plants, animal products, microorganisms, marine species, and fungi, among others, often driven by the need to discover new medicines. Many times, in order to enhance biological activities, extracts are prepared. One of the most well studied biological activities is antioxidant capacity, related to anticancer and anti-ageing properties, the improvement of immune function, and protection against cardiovascular diseases and neurological disorders. Moreover, in foods, antioxidants allow for delayed oxidation onset and enhancing food shelf life.

The effects of some food additives on human health are controversial, and synthetic food additives are often associated with potential public health risk. Therefore, there is a tendency towards substituting synthetic food additives with natural compounds.

This Special Issue focuses on the application of innovative extraction techniques for the recovery of natural antioxidants from foods, and their possible application in food industries.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
