Processing, Preservation and Analysis of Seafood Products

Guest Editor:

Prof. Dr. Ioannis S. Boziaris

Lab of Marketing and Technology of Aquatic Products and Foods, Dept. of Ichthyology and Aquatic Environment, School of Agricultural Sciences, University of Thessaly, Volos, Greece

Deadline for manuscript submissions:

closed (20 August 2021)

Message from the Guest Editor

Fisheries and aquaculture are very important for the provision of food, income, and livelihoods for hundreds of millions of people worldwide and it is predicted that it will contribute significantly to food security and nutrition for 9.7 billion people by 2050. However, up to 35% of seafood produced globally each year is wasted due to pre- or post-harvesting problems, including handling, processing, storage, and distribution steps, usually related to safety or spoilage aspects. This Special Issue presents up-to-date knowledge regarding current and emerging technologies in aquatic food processing and preservation, with advances in analyses towards safety, shelf-life extension, quality assurance, and detection of adulteration. By developing and employing innovative approaches, researchers can provide new knowledge of seafood technology and analytical or management tools to benefit individuals, industries, and communities involved in the seafood industry supply. This Special Issue welcomes original research articles and reviews related to this topic.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
