Message from the Guest Editor

Dear Colleagues,

The Solanaceae family of vegetables include eggplant, tomato, potato, capsicum, and chili. Solanaceous vegetables are recognized as healthy foods containing unique ingredients. The main goal of the special issue is to introduce the current progress in research on solanaceous vegetables to increase our understanding of their functional ingredients and health benefits.

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits
