Deadline for manuscript submissions:

31 October 2024

Message from the Guest Editors

Dear Colleagues,

By integrating their relatively high safety and renewability, the exploration and utilization of functional components derived from plant foods have attracted significant attention in the food industry. However, several concerns must be addressed urgently. 1) Resource mining; 2) Separation and chemical structure analysis; 3) Biological characterization. In this Special issue, we welcome original articles, mini-reviews, full reviews, commentaries, and perspectives focusing on, but not limited to, the following:

Components analysis in plant foods.

Component detection techniques.

Extraction techniques for plant-food-derived components.

Health-promoting effects of plant-food-derived components.

Structure–activity relationship for health-promoting effects of plant-food-derived components.

In vivo metabolisms of plant-food-derived components.

Interactions among gut microbiota and plant-food-derived components.

Molecular mechanisms for health-promoting effects of plant-food-derived components.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
