Circular Economy Approach to Produce Sustainable and Healthy Foods

Guest Editors:

Prof. Dr. Evandro Leite de Souza

Department of Nutrition, Federal University of Paraíba, João Pessoa 58051-900, PB, Brazil

Dr. Paula C. Castilho

CQM—Centro de Química da Madeira, Universidade da Madeira, Campus da Penteada, 9020-105 Funchal, Portugal

Deadline for manuscript submissions:

25 February 2025

Message from the Guest Editors

Dear Colleagues,

Circular Economy focuses on implementing production management systems that convert waste into sustainable resources. Some strategies based on the Circular Economy are being implemented worldwide in response to the need for post-pandemic economic growth, aiming at the sustainable development of productive processes linked to the agro-food sector. The loop of nutrients and bioactive compounds offers innovative and sustainable solutions for recovering various value-added components from food processing by-products with reported health-related properties and application opportunities in several industry sectors. This Special Issue is part of the actions of the Project “Ibero-American Innovation Network for the Sustainability of the Plant Food Value Chain” – Ibero Circular (CYTED Network 323RT0142). Original and review papers covering all aspects of the Circular Economy, such as food production and reuse, waste management, by-product utilization and valorization, and nutrient and bioactive compounds recycling, linked to the agro-food sector, are welcome.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
