Deadline for manuscript  
submissions:

**closed (28 February 2021)**

### Message from the Guest Editors

Bioactive compounds are substances found in natural products which exert beneficial effects on human health. These compounds have been associated with an array of different properties. In turn, this has made bioactives an attractive potential source of ingredients for new and/or added-value products for medical, cosmetic, and food/feed products. Moreover, the increase in the demand for these compounds, coupled with the need for sustainable industrial processes and a low production cost, has made agro-food products, and particularly agro-food byproducts, one of the most promising sources for this type of compounds.

This Special Issue deals with all aspects related to attaining bioactive compounds from agro-food sources, i.e., from extraction, passing through chemical characterization and ending in their biological activity characterization. We aim at publishing innovative research results and review papers on the extraction of bioactive constituents from agro-food products and their byproducts. Finally, this Special Issue seeks to be a source of knowledge related to the production of bioactive compounds from agro-food products and their byproducts.

## Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
