Deadline for manuscript
submissions:

closed (30 April 2015)

Message from the Guest Editor

Dear Colleagues,

This special issue of "Infrared Spectroscopy for Cereals Analysis" is dedicated towards the publication of articles that demonstrate research into new applications of infrared spectroscopy in cereals. The topics can include research on grains, flour and end-use products or plant materials and cover applications such as nutritional components, plant and grain responses to biotic and abiotic stress and food safety (mycotoxins). Novel infrared applications into single kernels of grain will be of particular interest to readers. Papers reporting new calibration approaches are always topical as well.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
