Deadline for manuscript
submissions:
closed (31 August 2022)

Message from the Guest Editors

The climatic changes occurring since the last decades have been requiring adjustments into the wine production chain, from grape cultivation and vineyard treatments to the cellar management and winemaking decision. In this emerging scenario, both viticulturists and oenologists have been looking for solutions to adapt the production chain to the new environmental conditions. This Special Issue will compile researches related to the strategies counteracting the climate changes applicable either to the vineyard or to the winery. We invite submissions that exploring the pair environment-quality through the relationships between the chemical composition, sensory evaluation, and overall quality of grape and wine. Manuscripts dealing with the quantification and evaluation of the impacts of climate change on the wine production will be welcomed too. Papers regarding studies on sustainable approaches softening the environment influence are also encouraged.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
