Message from the Guest Editors

This Special Issue, “Flavonoid and Non-Flavonoid Phenolics in Food: Product Quality and Health Benefits”, will help to highlight the most recent advances in all aspects of flavonoid and non-flavonoid phenolics and highlight the health-enhancing benefits of these compounds.

The biological activity of flavonoid and non-flavonoid phenolics, which are present naturally in plant material or as extracts added to certain foods, will be addressed from two points of view:

- its effect on the quality of the product;
- its effect on health.

This Special Issue of *Foods* welcomes the submission of both original papers and review articles.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
