## Instrument Analysis Applied in Food Science

Guest Editors:

**Dr. Patrícia Rijo**

**Dr. Célia Faustino**

**Dr. Maria Rosário Bronze**

Deadline for manuscript  
submissions:  
**closed (30 March 2021)**

### Message from the Guest Editors

The food matrix is a complex mixture of carbohydrates, proteins, lipids, vitamins, antioxidants, aromas, pigments, minerals, water, and other metabolites. Instrumental analysis is essential for the accurate determination of components, residues, and contaminants in food products in order to ensure quality and safety requirements. In this Special Issue, we will publish innovative research and review papers on instrumental analytical techniques applied to the characterization of food composition, structure, physicochemical properties, and sensory attributes. Extraction methods (microextraction, supercritical fluid extraction, ultrasound-assisted, etc), spectroscopic techniques (ultraviolet-visible spectrophotometry, photoluminescence spectroscopy, Fourier transform infrared, near-infrared and Raman spectroscopy, etc), chromatography, mass spectrometry and hyphenated techniques, electroanalytical methods, capillary electrophoresis, thermal analysis, molecular techniques, textural and rheological analysis, microscopy, miniaturization, automation, and multivariate analysis are specifically welcome.

## Editor-in-Chief

### Prof. Dr. Arun K. Bhunia

1. Department of Food Science,  
Purdue University, West  
Lafayette, IN, USA

2. Department of Comparative  
Pathobiology (Courtesy), Purdue  
University, West Lafayette, IN,  
USA

## Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
