Message from the Guest Editor

The aim of this Special Issue of *Foods* is to gather and display cutting-edge research on sensory properties of and consumers' responses to foods contributing to a sustainable food system. Here, food is defined broadly: from ingredients and prototypes to products on the market, dishes, and even diets. This Special Issue welcomes original research articles and reviews on studies that have used sensory or consumer research to study food or food-related behavior that has the potential to contribute to a sustainable food system. The methods should have either applied human senses to evaluate foods (using trained or non-trained panel) or studied consumers' responses to foods (such as attitudes or hedonic responses to new sustainable foods). Clear and concisely written manuscripts are highly desirable and appreciated.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
