

## Special Issue

# Innovative Technologies for the Recovery and Stabilization of High-Added Value Compounds from Agro-Food Wastes

### Message from the Guest Editors

At present, approximately one-third of the edible parts of food produced for human consumption are lost or wasted worldwide. Improper handling and disposal of agro-food waste can lead to significant environmental damage; therefore, a first option to avoid environmental issues and support the economy and society is to minimize agro-food waste and by-products. Extraction methods, the conditions for stabilization of bioactive components, and the validation of their bioactivity, stability, safety, and bioavailability ought to be investigated in more detail. This Special Issue welcomes manuscripts exploring any aspect of agro-food waste processing including the bioactive compounds found in agro-food waste, recovery and extraction methods for bioactive compounds from agro-food waste, the stability of bioactive compounds, the application of bioactive compounds in the food industry (food fortification and food preservation), the circular economy and agro-food waste recycling strategies, and other related topics.

### Guest Editors

Dr. Cristina Ghinea

Faculty of Food Engineering, Ștefan cel Mare University of Suceava, Suceava, Romania

Dr. Ana Leahu

Faculty of Food Engineering, Ștefan cel Mare University of Suceava, 720229 Suceava, Romania

### Deadline for manuscript submissions

closed (28 February 2025)

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

---

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
