Special Issue

Innovative Analytical Strategies to Ensure Food Safety

Message from the Guest Editor

This Special Issue aims to be a call for the latest innovative methodologies applied to the determination of toxic compounds in food samples, including natural toxins such as mycotoxins, plant alkaloids (pyrrolizidine, tropane, and opiate alkaloids) or phycotoxins, as well as toxic compounds formed during food production (including feed and primary production), food processing or food packaging. Moreover, manuscripts dealing with the occurrence of environmental chemicals (such as persistent contaminants and metals) will also be considered. Authors are invited to submit original and innovative research articles or comprehensive review papers on this topic, showing the potential of new analytical strategies to ensure food safety.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, Foods has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

- 1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
- 2. Department of Comparative Pathobiology, Purdue University, West Lafavette. IN 47907. USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
