

Special Issue

Cereal and Cereal Products: Processing, Storage, Conservation, Safety, Sensory and Nutrition Properties

Message from the Guest Editors

Cereal grains are distinguished for being outstanding sources of dietary energy and protein. Maintaining the quality of cereals throughout the production chain is essential to ensure food safety. Cereal grains and their products are highly susceptible to pest attacks, including insects and fungi. In this context, it is imperative to develop techniques that help maintain the quality and safety of cereals and cereal products. Recognizing the importance of preserving the quality of stored cereals and cereal products, from both nutritional and sensory perspectives, this Special Issue of Foods will focus on this area of research, focusing on, but not limited to, the following topics: Innovative Storage and Preservation Methods for Enhancing the Shelf Life of Cereal Grains The Role of Packaging in the Safety and Sensory Quality of Cereal Products Assessment and Management of Mycotoxin Contamination in Cereals Nutritional Enhancements and Fortification of Cereal Products Sensory Evaluation and Consumer Acceptance of Cereal Products

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2024).
