

Special Issue

Legumes as Food Ingredient: Characterization, Processing, and Applications

Message from the Guest Editors

Dear colleagues, Grain legumes are well-recognized as sources of proteins, starch, fibre, vitamins, and minerals for the human diet, being an essential food crop for people around the globe. This Special issue is looking for contributions on the following working: a) The nutritional quality and functional properties of legumes and their components; b) Seed nutraceuticals compounds and their molecular mechanisms for human health improvement; c) The characterization of novel legume varieties with enhanced nutritional properties; d) Global food security; e) The potential benefits of legume consumption or their bioactive components in human health; f) The impact of legume processing such as soaking, dehulling, boiling, autoclaving, germination, and fermentation in their nutritional and anti-nutritional (i.e., food allergy) properties; g) The development of novel legume-derived products adapted to consumer preference; h) Other related topics, such as the importance of legumes in human nutrition.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2024).
