Message from the Collection Editors

The open access journal *Forecasting* welcomes submissions for a Topical Collection on the topic of energy forecasting. The focuses of this Topical Collection are (but are not limited to):

- Demand (load) of electricity;
- Price of electricity;
- Fossil fuels (natural gas, oil, coal);
- Renewable energy;
- Wind power;
- Solar power;
- System forecasting for energy planning;
- Global energy transformation;
- Outage;
- Cyber-attacks;
- Customer behavior (e.g., occupancy).

About the Journal

Message from the Editor-in-Chief

The new open access journal *Forecasting* provides an interdisciplinary forum for all aspects related to the immensely broad field of time series analysis and forecasting. The range of applications in forecasting is enormous, from energy forecasting or economic analysis of stock indices prediction, climate forecasting, chemical or natural process forecasting, etc. It is the aim of the journal to publish relevant topical contributions for the scientific community of forecasting in a timely manner. We would like to invite you to contribute to the journal by sending us your high quality research papers and would be pleased to welcome you as one of our authors.
