**Prof. Dr. Enrico Marchi**

**Prof. Dr. Kalle Kärhä**

Deadline for manuscript  
submissions:

**closed (28 February 2024)**

### **Message from the Guest Editors**

Dear Colleagues,

This Special Issue gathers a selection of the best research works presented at the International Conference on Forest Mechanization (FORMEC) and Forest Engineering (FEC), held in Florence in September 2023. The Conference and the Special Issue gather notable figures in Forest Engineering, covering the largest range of related subjects, including (but not limited to): precision forest operations; digitalization in forest engineering; electrification of forest equipment; steep terrain harvesting; site impacts; safety and ergonomics; equipment selection and management; product quality, grading and tracking; enterprise and labor issues; silviculture and operations management. The selection of papers presented in this Special Issue offers an ideal opportunity for readers to be updated about the latest developments in forest engineering, now available to all interested parties: scientists, consultants, industry experts, practitioners, government officials, and students. Submission is also open to additional studies not presented at the FORMEC/FEC 2023 Conference, provided that their subject matter is germane to the specific interests of the event, as described above.

## Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

**Journal Rank:** JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)
